

Light it up like a PRO

STICK

Wireless DMX lighting control. Stick gives you cable-free control over your lighting set-up so no more running cables from your controller to your fixtures. Simply plug it straight into each fixture where the DMX cable would have gone and use it as a receiver together with the Orb transmitter. Handy and hassle-free plug-and-play technology. And you get the same rock-solid W-DMX performance which the lighting professionals love.

Rock out without getting tied down

What you get:

- Cable-free control over your lighting set-up
- A simple to use, plug and play product
- Rock-solid performance which won't let you down
- Wireless DMX tech loved by lighting pros

Stick is perfect if you're on the go and want to make lighting control that bit smoother

Weight:	50g
Antenna:	Built-in
Operating temp. range:	-20 to +55 °C
Storage temp. range:	-30 to +80 °C
Humidity:	0-90% non-condensing
Frequency range:	2402-2480 MHz (ISM band)
Max. RF output power:	10 mW
Supported protocols:	DMX-512A
Supported RF protocols:	CRMX, CRMX ² , W-DMX, G3, G4, G4S, G5

W-DMX - WIRELESS DMX

Stick uses W-DMX technology - an incredibly reliable wireless alternative to the DMX cable. It is also completely compatible with other W-DMX and LumenRadio CRMX products so as your business grows, you don't have to replace everything all at once. Start with Orb and Stick and later use them together with more advanced products like LumenRadio's Aurora or Stardust.
